Manage your spending - set budget goals by expense category

Always stay in control of your spending with the powerful Expense Tracking in Money Manager. Only on www.arthamoney.com!

If sticking to your monthly expense budget has you harried, you should try setting up a FREE Artha Money Manager account. India's first online Money Manager makes short work of your expense monthly budget. Once set up, Money Manager keeps track of all your expenses automatically, on the fly. Not only that, it automatically alerts you when you approach the budget limit for any of your expense categories. So you never exceed the expense limits you set yourself. Here's how you can make money management child's play:

- Set up your FREE Money Manager account on arthamoney.com in less than a minute
- Link all your financial accounts - banks, credit cards, loans, investment accounts and even reward points - to your Money Manager account just once (Money Manager supports more than 100 financial sites in India)
- That's it! Money Manager does all the hard work for you, while you attend to more important things

Money Manager automatically updates your account with all your financial information on the go, in real time - whether it is your account balances, transaction summary or even portfolio details! Once set up, use Money Manager to ascertain account balances, check networth, analyze spending, set budgets and much much more. It's simple, it's free and it only takes a minute! Go ahead. Log on to arthamoney.com now. It'll have your money turning cartwheels.
